STAG HANDLES IMPORTED
BUTCHER SAW BLADES IN COILS

FORTY-ONE YEARS MAKING BUTCHER KNIVES for Marketmen's use, being the **PIONEERS** in making goods to take the place of English Knives which were used **EXCLUSIVELY** by American Butchers. Our **SUCCESS DEMONSTRATES** that we have overcome the prejudice which existed in favor of these old brands

CONSERVATIVE METHODS

WE STICK TO OLD METHODS which won the **REPUTATION** our brand now has. Among these may be mentioned **FORGING** and **HAND HAMMERING.** Tempering by a process **USED EXCLUSIVELY** by us after hardening in oil. Grinding by the old **WET STONE PROCESS** and not on Emery Machines

TOOLS AND NOT CUTLERY

Our line should not be classed as cutlery, but as **MECHANICS' TOOLS,** and given the same **ATTENTION. DEALERS** make the mistake of carrying a line of **BUTCHER KNIVES** made by the concern whose Table and Carver Cutlery they sell, and which have no **CHARACTERISTICS** to **RECOMMEND THEM TO BUTCHERS**

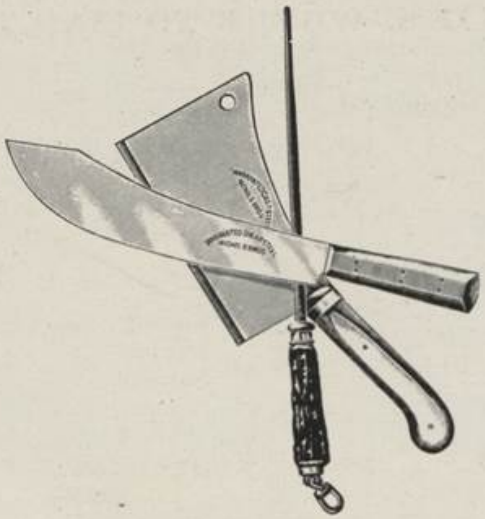
Very truly,

NICHOLS BROTHERS

Cutlers to the American Butchers

ELECTROTYPES

For Newspaper Advertising



We furnish the above Electro for Newspaper advertising, free of charge. Will pack one or more in your orders if you will mention it. We will furnish any illustrations shown in our catalogue. We know it will pay you to have them

TERMS

NET CASH THIRTY DAYS, or 2 per cent off for Cash in Ten Days

DELIVERY F. O. B. FACTORY

All Accounts Payable in current NEW YORK OR BOSTON FUNDS. Shipments made by Parcel Post at customer's risk, unless advised by customer to send insured

---

READERS OF THIS CATALOGUE will note the **HEAD AND FOOT NOTES** relating to each **ILLUSTRATION.** We have made them short and **TO THE POINT,** but, in our mind, much more effective than if pages were written on each subject

All Price Lists issued previous to this date are made void

"NICHOLS BROS." BRAND

PUTTY KNIVES

The Price of our Putty Knives may seem high but this is not so. Consideration should be had for the quality, shape and finish of these goods. Our handles are shaped to fit the hand. This in itself is worth a great deal to a man who works constantly with one of these Knives. The quality of steel in them, and the manner in which they are tempered, make them wear longer than the ordinary Putty Knives. If a low-priced Knife is wanted your attention is called to the one at the bottom of the page, No. 2000, which carries the same high quality of steel and temper as the higher priced line
